Arvind Verma

Founder and Principal Engineer, NoDowntime Technologies FZCO. Cloud infrastructure and security engineer.

Dubai, United Arab Emirates **connect@techiarvind.com** techiarvind.com linkedin.com/in/techiarvind fiverr.com/users/arvitsolutions

Summary

Cloud infrastructure and security engineer with more than eight years running production systems on AWS, Azure, Google Cloud and Oracle Cloud. Founder of NoDowntime Technologies FZCO in Dubai, serving clients on four continents. Fiverr Pro and Top Rated, with a 5.0 rating across more than 1,500 client reviews. Current focus: security for AI agents that work on live infrastructure, and keeping credentials out of AI tools.

Experience

Mar 2022 to now

Founder and Principal Engineer

NoDowntime Technologies FZCO, Dubai

DevOps, round-the-clock monitoring, incident response and security for clients abroad. Hands-on in the engineering.

David Hartsome

AWS re-architecture, Terraform and Ansible automation, about 30% lower operating costs.

Aug 2014 to Mar 2016

Web Developer and Business Analyst

CyberElectronics, Ghaziabad

Built the e-commerce store and ran seller onboarding.

Projects

Project

NoDowntime Security

Security monitoring for small businesses. More than 30 external checks, findings linked into likely attack paths, and fixes applied only after the owner approves. Early MVP.

Project

AI Security and Digital Forensics Assistant

Multi-agent orchestration on a custom LLM abstraction layer. First milestone complete.

Project

Multi-model routing MCP server

Routes tasks across Claude, Codex, Gemini, Cloudflare Workers AI and local models to cut the cost of expensive models.
